OVERVIEW

Enthusiastic and detail-oriented Full-Stack Web Developer with hands-on experience in building dynamic and responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in creating intuitive user interfaces, developing RESTful APIs, and implementing secure authentication systems. Passionate about solving real-world problems through clean, efficient code. Strong foundation in both front-end and back-end development, with proven ability to work on collaborative projects and deliver high-quality results. Always eager to learn new technologies and improve existing solutions.

EDUCATION

Master of Science in Computer Application

June 2023 - June 2025

Dr. Shyama Prasad Mukherjee University

- Relevant Coursework in Java and Advance Java, Analysis of Algorithm ,Data Structures and Algorithms, Software Engineering, Database Management System.
- Major Projects on Application of JavaScript , Java Swing.

Bachelor of Science in Computer Application

June 2020 - June 2023

Dr. Shyama Prasad Mukherjee University

- Relevant coursework in Data Structures and Algorithms, Software Engineering, Database Management System, Operating Systems, Data Communication and Computer Networking, Object Oriented Programming.
-

SKILLS

Languages:	Java , JavaScript
Frontend:	React.js, HTML5, JavaScript, Tailwind CSS
Backend:	Node.js, Express.js, Java, RESTful APIs
Database:	Oracle , MongoDB
Technologies:	Git, GitHub, Postman, JWT, Socket.IO
Soft Skills:	Problem Solving, Time Management, Teamwork, Community Building

INTERNSIPS

Lifetech Software PVT LTD

1 Month

- Designed and implemented AI-driven chatbot solutions leveraging Natural Language Processing (NLP) and API.
 - Contributed to training and fine-tuning AI models to enhance interaction quality and user experience.
-

PROJECTS

Rojgaar.com - A job listing website

- Developed a MERN stack job portal similar to LinkedIn & Naukri.com, enabling job seekers and employers to connect.
- Built a React.js front-end for a dynamic and user-friendly job search and listing experience.
- Used MongoDB, Express.js, and Node.js for secure authentication, job postings, and data management.

BaatCheet - Real-Time Chat App

- Developed BaatCheet, a real-time chat app using the MERN stack and Socket.IO to support one-on-one and group messaging.
- Integrated JWT-based authentication with secure login/signup flows and managed chat data using MongoDB.
- Designed a responsive UI using React.js and Tailwind CSS, featuring typing indicators, online status, and message notifications.
